

## SGI - English Combination Course

Our English Combination courses integrate the morning Standard English group course (9.15-12.45) with **one-to-one English lessons** in the afternoon starting at 13.30. This is an ideal course for students who want to develop their general ability as well as focus on their individual requirements. Finishing early or mid afternoon, students still have every opportunity to visit the sights and attractions of London.

### What can I expect from the course?

- \* This course combines the best of both worlds, with **dynamic group classes**, that develop your general ability in English, along with individual lessons, that fully focus on your individual needs.
- \* **You can choose** weekly either 5 (Combo 5), 10 (Combo 10) or 15 (Combo 15) lessons of individual tuition in the afternoon. As specialists in one-to-one tuition you can expect well-planned and stimulating individual lessons from your teacher. 1 lesson = 45 minutes.
- \* You are always given a complete review of what you have accomplished in your one-to-one afternoon programme as well as clear advice and **guidance as to continuing your English study** after leaving the school.

**Roxane from France:** "With my first teacher, in the morning group classes, there was good methodology, you really feel he likes his job and this gives you the desire to improve. My 1-1 teacher had great knowledge of American and British civilisation, which is going to be really helpful for my exams in France."
