

SGI - University Foundation Course (since 1996)

This year, SGI London celebrates 20 years of its comprehensive and successful University Foundation Course. The course can be taken over a **9 month (September entry)** or **6 month (January entry)** period and successful completion leads to placement at a British University. The course combines Academic English and IELTS preparation in the morning with subject study in the afternoon. Subject modules in the afternoon include Economics, Politics and Business Studies. We pride ourselves on our personal professional approach, ensuring students are fully prepared for UK university life.

What you can expect from the course

Small groups (average 8 students): *maximum personal attention*

Intensive Individual support: *Individual Learning Plans and weekly tutorials*

English language specialists: *Over 50 years experience and expertise to ensure you succeed*

Experienced and exceptional academic team: *All tutors many are Oxford and Cambridge graduates*

Free and comprehensive University application assistance: *helping students make the right choices*

Broad range of degree subjects can be followed after the course: *including Business, Engineering, Politics, Economics, Law*

January entry (24 weeks) = £5280

September entry (36 weeks) = £7740

Rossana from Angola: "Hi everyone! I did a University Foundation course at SGI for 6 months and thanks to it I managed to improve my English and now I'm doing a Mechanical Engineering degree at Aberdeen University. I had a great time at SGI, the teachers were helpful and experienced and I made a number of good friends there who I'm still in touch with."
